

MR2707-52

Serial Number: 10/733,277

Reply to the Final Office Action dated 12 December 2005

**REMARKS/ARGUMENTS**

This case has been carefully reviewed and analyzed in view of the Final Official Action dated 12 December 2005. Responsive to the rejections made in the Official Action, Claim 1 has been amended to clarify the combination of elements that form the invention of the subject Patent Application. Claims 5, 6 and 18 have been amended to change the dependency thereof, and Claim 11 has been amended to maintain proper antecedent basis of the limitations thereof. Claims 4, 7, 15, 16, and 19 - 23 are cancelled.

In the Official Action, the Examiner objected to the Title as not being descriptive and required a new Title. Accordingly, the Title has been amended to -- STRUCTURE OF A LIQUID CRYSTAL ON SILICON DISPLAY HAVING MULTIPLE REFLECTORS AT DIFFERENT ANGLES FOR REFLECTING DIFFERENT WAVELENGTHS OF LIGHT --. It is believed that the new Title is clearly indicative of the claimed invention. If the Examiner still believes that the TITLE is not indicative of the claimed invention, it is respectfully requested that the Examiner telephone the undersigned attorney to discuss the language of a title that the Examiner would find acceptable.

In the Official Action, the Examiner rejected Claims 1, and 3-5 under 35 U.S.C. § 103(a), as being unpatentable over Hirakata et al., U.S. Patent No. 6,839,108, in view of Yamazaki et al., U.S. Patent No. 6,242,343, in view of Nakamura et al., U.S. Patent 6,124,911. However, the Examiner kindly indicated

Reply to the Final Office Action dated 12 December 2005

that Claims 17 and 18 were allowed and Claim 7 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 1 has been amended to incorporate the subject matter of Claims 4 and 7 therein. Thus, Claim 7 has effectively been placed independent form, including all of the limitations of the base claim, Claim 1, and the only intervening claim, Claim 4. Therefore, Claim 1 and the Claims dependent thereon should now be allowable. Still further, it is believed that Claims 2, 6 and 8-14 are dependent upon an allowable generic base claim, and therefore should also be allowed.

For all of the foregoing reasons, it is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
